

THISHYA MANNUR

PRODUCT DESIGN • UX RESEARCH • INTERACTION DESIGN • AI PRODUCTS

Hyderabad, India | thishya14@gmail.com | +91 63095 42007 | LinkedIn | GitHub

PROFILE

Product designer and founder who turns everyday frustrations into shipped products. Skilled in UX research, interaction design, rapid prototyping and AI-assisted building. Experienced in taking products from a personal problem through user interviews, design and real-world testing with studios and freelancers.

PROFESSIONAL EXPERIENCE

Founder & Product Designer — **Prruf** | 2025 – Present

- Co-founded, with Tanish Maheshwari, a private AI note-taker for Mac and Windows that captures work every ~2.5 minutes and turns it into reports.
- Led product design end to end: user research, interaction design, privacy model (text only, screenshots never saved) and the onboarding walkthrough.
- Built the MVP with AI-assisted development and ran week-long tests with 5+ studios and freelancers; shaped the product around tester feedback.
- Designed task grouping, break detection, merge / split / rename review and one-click PDF reports.

UI/UX Intern — **Gyannidhi Innovation** | Hyderabad | May – Jun 2026

- Conducted UI/UX research on the company's dashboards and redesigned them to make navigation simpler and clearer.
- Maintained a daily progress log of design work, the experience that later sparked the idea for Prruf.

SELECTED PRODUCT & DESIGN WORK

Prruf — AI work note-taker; research, interaction design, onboarding, MVP build and testing with 5+ studios.

Biometric Verification for Pensioners — UX research study (Studio 1); interviews with pensioners and CSC operators, empathy map, journey mapping and wireframes for a guided self-service kiosk addressing 10–15% fingerprint failure rates.

EDUCATION

Unitedworld Institute of Design, Karnavati University — B.Des in Interaction Design | Gandhinagar | 2024 – 2028

Delhi Public School, Nacharam — Senior Secondary (CBSE) | Hyderabad | 2022 – 2024

SKILLS

Design & UX: User Research, Interviews, Empathy Mapping, Journey Mapping, Wireframing, Prototyping, Interaction Design, Visual Design

Tools: Figma, Adobe Illustrator, Photoshop, AutoCAD, Claude, Claude Code

Product & Build: Product Strategy, MVP Testing, AI-Assisted Development, HTML / CSS, Website Design

ADDITIONAL

National-level skater, which is where I learned that showing up every day beats being perfect once. I built this portfolio myself, and I'm happiest when a good conversation turns into a design idea.
